## Farm to Vape Thinner Gallon Size

---

Farm To Vape is pleased to announce the release of their larger 1 gallon size bottle of their famous Thinner. Farm To Vape's Thinner is recognized as the purest, and easiest mixing agent on the market for breaking down concentrates, and essential oils into a stable eliquid for all vaporizers.

As the Vape industry has continued to grow so has the consumers desire to mix their own eliquids to control exactly what they are vaping, and with this so has the market for essential oils and herbal concentrates being sold in quality eliquid for vaping. This trend has not gone unnoticed by retailers, and manufacturers of many herbal concentrates and extracts. Farm To Vape has designed their one gallon size bottle of Thinner with these commercial enterprises in mind. Now retailers, and concentrate makers can focus on making and selling only the best possible products to their consumers, and rest assured knowing that their eliquids are being produced with only the finest base for their new product lines. These organizations focus on producing and selling only the highest quality of product, and knowing that Farm To Vape is always manufactured to the highest

standards in an ISO9001:2008 facility, and made only with NF and FCC rated ingredients they can rest assured that their eliquids are made with the best available products.

Farm to Vape is pleased to focus on growing their business partners' new eliquid lines, and with this new one gallon size of Thinner they are aligned to do just that. Wholesale, distribution and licensing opportunities are available. Farm to Vape products can be purchased directly from the Farm to Vape website [www.FarmToVape.com](http://www.FarmToVape.com) .
